

Radi Totev

QA SDET passionate about high quality product delivery; writing clean E2E automation tests; learning new technologies, techniques and best-practices.

EXPERIENCE

Hostmaker, Senior QA/ SDET

July 2018 – now | London

Created test framework and covered company's guest facing applications with E2E automation tests. Dockerized tests and integrated them in the CI/ CD pipeline first in Shippable and later in CircleCI. Introduced *Three amigos*, *Retrospective* sessions and BDD acceptance criteria in the company. Created new and extended existing project documentation. Taught other QAs how to create new tests using Ruby, Cucumber, Capybara, SitePrism. Principle QA for www.tributeportfoliohomes.com and PWA where guests can submit their arrival details and support QA for stay.hostmaker.com.

Civica Digital, QA/ SDET

July 2017 – June 2018 | London

Creating and maintaining E2E tests for a number of government projects (NCA, Home Office, MOJ), TEWV NHS Trust. Created API test collection using Postman for PrePay Solutions. Dockerized and integrated tests in TeamCity. Mentored other QAs in creating automation tests using Ruby, Cucumber.

Magentys, QA/ SDET

January 2017 – June 2017 | London

Worked as a consultant at **Chelsea Apps Factory** on **Vanquis** bank mobile app project. Responsible for the iOS app tests. Extended existing E2E tests and improved existing Cucumber, Ruby, Calabash test framework, as result execution run time was reduced by 30% and 'flaky' test issues resolved. After release the app ranked #1 in Finance in the App Store and was in the top 5 in Google Play. In 2018 it won Best UK Fintech App in the UK App Awards.

Full stack developer training

January 2014 – December 2016 | London

From January 2014 dedicated my entire time in learning to develop. In the following 2 years completed Udacity's '*Introduction to Programming Nanodegree*', FreeCodeCamp's '*Front End Development Program* and *JavaScript Algorithms and Data Structures Project*', Udemy's '*Ruby on Rails, BDD, RSpec and Capybara course*' and created number of projects deployed on Heroku or served from GitHub static pages. More on www.radi.website.

EDUCATION

School of Technology, "Electronic System Engineering at the Technical University of Sofia", Specialist in Computer Engineering and Technologies

1992 - 1997 | Sofia, Bulgaria
