BACKEND PROJECTS

Facebook Clone

Facebook clone app, allowing users to create posts, write comments, 'like' other user's posts and send and receive friend requests. Omniauth gem in the app allows users to sign in using their real facebook account.

Source code: <https://github.com/raditotev/odin-facebook>

Flight Booker

In this app users can book one-way flights. On the first screen user can choose date, departure and arrival airport, number of passengers and search for available flights. Next he or she can pick one from a list of eligible flights. Then the user is redirected to page where passenger details must be entered and after the form is completed reservation is made.

Source code: https://github.com/raditotev/flight_booker

Odin Kittens

Simple data producing app. The kittens controller methods generate html and API data in json format responses.

Source code: <https://github.com/raditotev/odin-kittens>

Flickr API

App taking Flickr user id and returning 12 of the latest photos he/she uploaded using Flickr API service.

Source code: <https://github.com/raditotev/flickr-api>

To Do App

This app lists all projects on the index page. Creates new project with nested tasks and shows project's tasks. Build as an exercise in advanced forms and nested models.

Source code: <https://github.com/raditotev/todo>

Pet Sitting

A site connecting pet sitters and pet owners.

Source code: <https://github.com/raditotev/pet-sitting>

FRONTEND PROJECTS

Portfolio

Page with short info about me, list of projects and links to my social media accounts.

<https://github.com/raditotev/my-portfolio>

Pomodoro Timer

Time management app based on the "Pomodoro technique".

<https://github.com/raditotev/pomodoro-timer>

Wiki Search

Searches Wikipedia for given query. Returns first 10 pages. "Feeling lucky" redirects to random page.

<https://github.com/raditotev/wiki-search>

Weather App

Shows current weather for user's location.

<https://github.com/raditotev/weather-app>

Random Quotes Generator

Generates random quote via API callback. Quotes can be twitted directly from the page.

<https://github.com/raditotev/random-quotes>

Twitch Streamers

This app gets info for a list of Twitch users via API. Active users are on the top of the list highlighted in green with information what is currently being streamed.
